Additional Information About Kida's Visit

- Thank you for trusting Vetco with your pet's healthcare needs. Your team today was Anna-Maria R., Bryanna C., Maisie M. and Marina B. It was our pleasure serving you and your pet.
- Delaying giving your pet's heartworm medication beyond 30 days of their negative heartworm test result, or any missed dose after, could decrease the effectiveness of the medication and void the manufacture warranty. Re-testing your pet in 6-7 months from first missed/delayed dose is recommended.
